

VOTE ANC ON 1 MARCH

**A plan to
make local
government
work better
for you**

ENGLISH

South Africa is changing for the better

More people than ever have access to clean water and have electricity in their homes. More people have opportunities to improve their lives, and to become educated and acquire skills.

Thanks to the growing economy more jobs are being created, enabling us to reduce poverty. More South Africans have gained access to housing, land and education.

While we are pleased with these achievements, much more needs to be done.

Through our experience, and by listening to the views of the people, we have learnt many lessons.

That's why the ANC has an action plan to make local government work better for you.

Together with you, the ANC will:

- **Speed up service delivery** to ensure all South Africans have access to clean water and decent sanitation by 2010, all houses have electricity by 2012, and all households receive free basic services.
- **Improve the provision of housing**, ensuring better quality houses closer to economic opportunities.
- **Build infrastructure, stimulate local economic development** and fight poverty through the public works programme and other special programmes where the poorest people live.
- **Create job opportunities** by implementing large projects in all provinces.
- **Make sure that your voice is heard**, by strengthening participation in Ward Committees and other forums so that you can have a greater direct say in the development of your community.
- **Help local councils to meet your needs**, through programmes like Project Consolidate and others that ensure national and provincial governments work harder to support local councils.
- **Provide more resources and trained staff** for local government.
- **Train all councillors** so that they can effectively serve their communities.
- **Regularly review the performance of councillors** to ensure they meet their obligations to the people.

**ONLY THE ANC HAS THE EXPERIENCE,
CAPACITY AND POSSIBILITY TO UNITE SOUTH
AFRICANS IN BUILDING BETTER COMMUNITIES.**

**So support the plan to make local
government work better for you.**

**Working together, we CAN and
WILL do more.**

**Vote ANC in the local government
elections on 1 March.**
